PROFESSIONAL SUMMARY

Hands-on Senior Frontend Engineer & Player-Coach Lead with 7+ years architecting and delivering production-grade web platforms. Expert in building complex, scalable UIs as an Individual Contributor while simultaneously leading engineering teams. Shipped high-impact features for live telecom products serving 50K+ users including Lebara (lebara.sa) and Red Bull Mobile (redbullmobile.sa). Deep expertise in React, Next.js, and TypeScript with hands-on backend experience in Node.js and GoLang. Proven ability to architect core systems, mentor developers, and consistently ship on schedule without stepping back from the code.

EXPERIENCE

Team Leader · Full Stack Engineer

07/2024 - Present

Sigma EMEA

- Architected and delivered full-stack features for telecom platforms (lebara.sa, redbullmobile.sa) serving 50K+ users, focusing on authentication, payments, and dashboard systems.
- Resolved 40+ critical bugs in OTP login, quick-login, and payment gateway flows, reducing transaction failures and strengthening platform security.
- Integrated Strapi CMS giving non-technical stakeholders full CRUD control over prepaid/postpaid plans and VAS pages (OSN, Anghami), cutting developer dependency by 60%.
- Delivered NAFAZ integration with Saudi government for SIM activation; enforced OTP verification across 100% of payment transactions.
- Built multi-SIM support from scratch, enabling users to manage multiple SIM cards from a single dashboard, boosting user engagement.
- Acting as Player-Coach Lead: managed 5 engineers, ran weekly code reviews, and maintained on-time sprint delivery while remaining the primary hands-on contributor.

Frontend Team Lead

12/2023 - 06/2024

MG Group

- Led a team of 6 engineers building a multi-app admin dashboard covering 4 mobile apps (fashion, cosmetics, jewellery, celebrities) with coupon management and appointment booking.
- Developed a full salon management platform: owner dashboard for listing venues + customer-facing booking interface, delivered within a 6-month timeline.
- Enforced code quality via structured code reviews and performance audits; maintained 100% on-time milestone delivery throughout the project.

Senior Frontend Developer

11/2023 - 05/2024

Houya For Information Technology · Part-time

- Resolved critical issues on [Karaz](#), JWT token refresh, cart state management, and order operations in the admin dashboard.
- Built a merchant exhibition portal (React + Redux Toolkit): separate admin dashboard for exhibition management and user interface for booth reservation.

Senior Frontend Developer

06/2023 - 10/2023

Euruq Alsaahra · Part-time

- Delivered a full admin dashboard for [eateasy](#), covering content management, authentication integration, and frontend performance optimisation.

Senior Frontend Developer

02/2023 - 10/2023

Startup Defenders

- Built a real-time IoT device management system handling 1,000+ connected devices, with live notifications and analytics reporting dashboard.
- Key projects: [saferoad](#) Management System · Fleet Management System · Car Rental Web App.

Mid-Level Frontend Developer

06/2022 - 02/2023

Shoppex

- Implemented cart and product storage pages using Redux Toolkit, contributed to performance improvements and admin dashboard authentication.

Frontend Instructor

11/2020 - 06/2022

X_Team

- Taught HTML, CSS, JavaScript, and React to 10+ junior developers; guided students through real-world project builds and state management with Redux.

Junior Frontend Developer

07/2018 - 08/2020

Ooredoo

- Translated Figma mock-ups into responsive, cross-browser UIs, maintained bug reports, tickets, and code change documentation throughout delivery.

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, MUI, Redux Toolkit, GraphQL

Backend & DB: Node.js, Express, GoLang, MongoDB, SQL, Firebase, Strapi CMS

Tools: Git, GitHub, Figma, Postman, Jira, Agile / Scrum, Jest, React Testing Library, GitHub Actions

EDUCATION

B.Sc. Commerce & Business Administration

Helwan University

Department of Systems & Information, Data Structures & Microsoft Tools

LANGUAGES

Arabic: Native | **English:** Professional working proficiency
